

WEMBLEY WINDOWS

Upvc & Aluminium Windows, Doors & Conservatories

About us

Wembley Windows is a family run business committed to offering a high quality service. The company's proven track record of recommendations throughout the years has enabled us to become one of London's leading suppliers.

Established by Ori Fogel in 1984 and now run by his daughter Gaby, Wembley Windows is a supply and installations company. Originally based in Wembley, the company moved in 1994 to larger premises in Staples Corner enabling the company to offer a wider range of products.

We pride ourselves on offering a reliable and efficient service, good quality products and a high standard installation with a full back-up service. All of our work comes with a 10 year insurance backed guarantee and Fensa certifications. Our products are sold direct to trade customers from our showroom, by telephone orders or by site visits. We provide a high level of individual service and encourage customers to visit our showroom to view the variety of products we have on offer.

Our experienced design consultants work flexible hours to coincide with our clients' schedules including weekends. Their extensive knowledge of our industry and product range, together with sample products and portfolios of our work, will assist you to choose your individual glazing requirements from the comfort of your own home. If you're looking for upvc windows, doors or conservatories in London, you won't find better than Wembley Windows.

The excellent team consisting of office staff, installations managers, qualified surveyors, experienced fabricators and highly skilled installers have been with Wembley Windows for many years. A friendly and helpful approach is guaranteed. Our showroom is open Monday - Friday between 9am - 5.30pm.

Product range

- Casement Windows
- Bay Windows
- Vertical Sliders
- Residential Doors
- Composite Doors
- Sliding Doors
- French Doors
- Bi-fold Doors
- Conservatories
- Aluminium Products

Casement Windows

Our windows are designed and individually manufactured to suit your requirements. We offer an exceptional energy rating that will keep your home warm in the most severe weather conditions, reduce your heating bills while at the same time provide you with a high degree of security.

All of our casement windows are manufactured with lockable ironmongery as standard. We offer a choice of hinges including a 90° fire escape hinge which includes an easy-clean facility.

Uniquely
designed
to enhance
your home

Bay Windows

Our bay windows are manufactured to suit your requirements be it a traditional bay or a more modern bow-style window, we manufacture high-performance, draught-free and secure windows.

The essential thing about bay windows is that they are a load-bearing structure. All of our bay windows are manufactured with complete reinforcement in both the frames as well as the support posts.

Our teams of skilled installers have vast experience in fitting all types of bay windows to ensure the structural integrity of your home.

Individually designed to maintain the original look of your property

Vertical Sliders

Our vertical sliding sash windows combine traditional looks with modern features, offering all the benefits of a modern Upvc system.

The inner pane slides up like a traditional sliding sash, and the outer pane slides down for 'child-safe' ventilation. Its versatile tilting mechanism also enables easy cleaning of both panes from the inside.

The secure design of the vertical slider gives excellent protection from break-ins, plus the triple brush seal keeps drafts at bay. The vertical slider is a perfect addition to any home.

The most
authentic
vertical sliders
on the market

Upvc Doors

Our doors are designed to compliment a wide variety of homes. We manufacture our residential doors with a choice of panels or glass options for you to choose from. We can offer matching side panels to allow more light to enter your home.

All of our doors feature robust security hinges as well as strong multi-point hook-lock locking mechanism, metal reinforcement (where required).

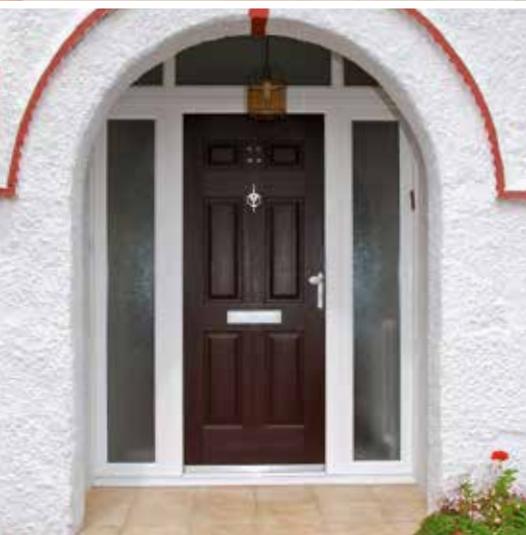

All of our doors are glazed with toughened safety glass.

A vast range
to suit every
style of
property

Composite Doors

A traditional appearance featuring modern technology

This beautiful moulded and richly grained exterior surface has the look and feel of traditional timber without its environmental and maintenance disadvantages.

Our composite doors have a solid core offering a higher thermal and sound insulation compared to most doors. The combination of its solid core specification, multi-point locking system, centre dead-bolt and a full 72mm Upvc steel reinforced frame makes the composite door one of the most impenetrable doors on the market.

Sliding Doors

Enhance the view to your garden

A good option to enhance the size of your room, the sliding door gives excellent visibility to the outdoors and can be designed in either two, three or four part sections depending on the space.

All of our sliding doors are manufactured with stainless steel wheels allowing the sliding panels to roll back and forth easily. They are glazed with double glazed toughened sealed units and feature multi-point locking systems as standard.

French Doors

French doors compliment the replacement of traditional timber doors. Available with inward and outward opening options, our French doors feature slim profiles to maximise the glass area. These doors can achieve a 180° maximum exit and entry space.

All of our French doors are tailor made to suit your home, side panels can be added where required. We can also offer you different glazing options such as authentic Georgian bars.

Create the feeling
of spaciousness,
letting light & air
into your home

Bi-fold Doors

Create a living space incorporating the outdoors

These doors are designed to achieve the ultimate visibility, enabling a maximum clear opening of up to 7m.

These doors have a particularly modern and stylish appearance, perfect for those who enjoy the use of their outdoor space as they incorporate your living area with your garden .

Conservatories

A perfect way to extend your home all year round

We offer an extensive range of conservatories to complement the character of your home, with a wide range of colour options to choose from and styles to suit your requirements.

The range of glazing options available covers traditional glass to hi-tech modern polycarbonate alternatives. We offer a choice of glass options within the Pilkington range such as active self-cleaning, toughened laminated glass or argon-filled glass to suit your budget and requirements. Should you require, we can also offer you a full planning service.

Aluminium Products

We offer a vast range of aluminium products including windows, residential doors, sliding doors, French doors, bi-folding doors and conservatories.

One of the benefits of choosing aluminium is the slim-line section which allows for more glass area and a less visible frame. All of our aluminium products are powder coated with a 45 micron finish, available in a wide range of colours and finishes.

All of our aluminium products are thermally broken and feature high security insurance company approved locking mechanisms.

Contemporary styling, individually designed to suit your home
